The mayor is coming direct from the capital, where he has been for the past two days, concluding a tour of the East in investigations incident to his public health campaign.

It is not known whether he considered the selection of a city health department head while in the East. Mayor Paine has held several conferences with prominent health officials while away. Ideas he has gained will be put in effect here on his return, and the arrival of the George Preble health survey report, which is expected shortly.

Here's the Story of the Greatest Sale Ever Inaugurated in This City—A Merchandising Achievement Without a Parallel

Goldsmith's Buyers and Managers Million Dollar Sale

A Whirlwind Merchandising Campaign to Bring Prices Down to Pre-War Levels

Starting Monday, May 24th

Offering Choice of More Than a Million Dollars' Worth of the World's Best Merchandise at the Lowest Prices Named in Years

Actual Savings of 15 to 50 per cent

Every year at about this time it is our custom to turn over the entire conduct of this business to our Buyers and Managers for the purpose of holding a thirty-day sale, in which each department and each manager is attempting to outdo the other in volume of sales and value-giving. The sale, this year, is beyond all doubt the greatest in the history of local merchandising.

Extraordinary conditions demanded extraordinary efforts—instructions have been issued to go the limit in buying, selling and advertising. For months our buying organization has combed the markets for desirable merchandise underprice—and a corps of experts has been maintained in the East, armed with the cash, ready to take advantage of every turn in the market. They were told to get bargains and plenty of them. A special committee of buyers was created with authority to plan every detail of the sale and pass on every item offered.

The Committee, whose picture appears above, put every item offered for this sale through a "third degree" investigation—and nothing but the best merchandise at DECIDED REDUCTIONS—received their O.K.

More than a million dollars' worth of high-grade merchandise has been assembled for this history-making event—the best products of the best manufacturers are included—every source of good supply has been drawn on for extraordinary values, and the committee of five buyers, whose pictures appear above, selected only the very best and biggest values for this sale.

Never was an organization so enthused over a sale! Our entire force is keyed to the highest pitch of enthusiasm! The executive committee has been in session almost constantly for weeks—meetings of buyers have been held from day to day—meetings of salespeople have been held and prizes are to be awarded the departments showing the greatest percentage of increase for the duration of this sale.

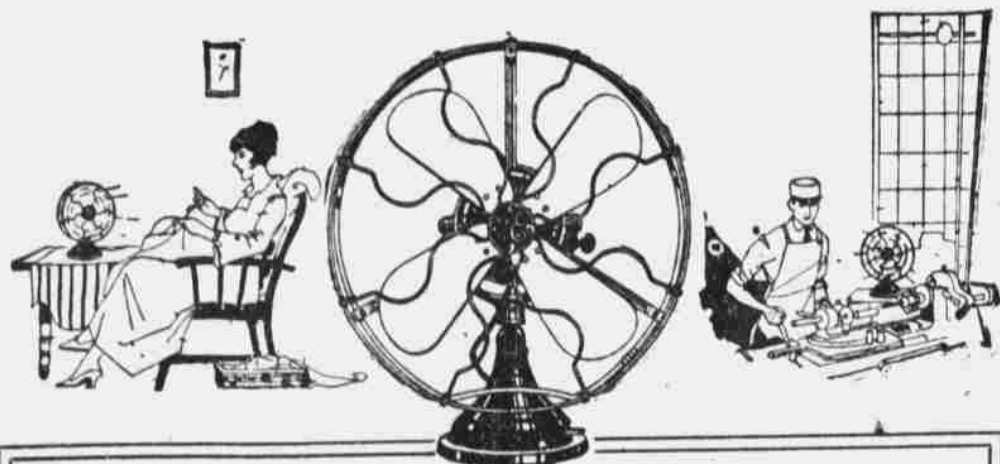

Everybody in our store is on tip-toes—waiting for the opening of the sale Monday. It is our determination to make this the greatest sale ever held in this city—exceeding even our past record-breaking Buyers and Managers Sales.

In addition to the hundreds of special underprice purchases which will save you tens and tens of thousands of dollars, we are including much of our own regular lines at reductions of from fifteen to fifty per cent. Never did a sale offer such wonderful money-saving opportunities. Our big ad in tomorrow's paper tells the complete story—it is a body blow to the high cost of living, offering fine, new, desirable merchandise at terrific price reductions. SALE STARTS MONDAY MORNING—COME DOWN EARLY.
